# Application

Outdoor type water-proof laboratory

Solution of power supply system

- Intelligent modularized substation
- Outdoor type water-proof switchgear

ENERGYSOLUTION

HORNGYU
ELECTRIC CO., LTD.

iPanel Cloud Management System

Big data from Cloud management system (iPanel), with INERGEN ® fire protection system, to monitor intelligently the environment and equipment status, and to secure real time the system and operation under normal conditions.

Structure & Specification

- ☑ Rated Specifications
- ☑ Efficiency in installation
- ☑ Safety Management System
- ☑ Environment Monitoring System
- ☑ Intelligent positioning and Analyzing report
- ☑ Grid connection
- ☑ High efficiency in heat dissipation
- ☑ Corrosion-resistant, ISO-compliant open container, can be transported on the road
- ☑ Can be integrated of DC power panel, auxiliary power distribution panel and system controller, high utilization in space

Energy management system

Real time 24/7 monitoring the equipment to prevent problems in advance, to better manage the maintenance and energy consumption.

Safe protection system

Fire safety, lightning protection grounding design, heat insulation and flame retardant, air conditioning system and vent design, alarm design, electrical interlocking.

Outdoor type water-proof Switchgear

THE NATIONAL BRAND
YUSHAN AWARD
2021

Approved by Bureau of Energy, Ministry of Economic Affairs, R.O.C., to ensure the quality and safety of power supply.
